CSE (2014-18)

*I was ambitious, I wanted to be a successful technician to earn wealth and fame. SRVEE motivated me the ability to achieve my goal. Being a student of second batch and at the same time, having connection from a society where destiny is more important than education, the path was not so easy. My parents went against the society norms and it was my responsibility to perform well. I am alumni of a reputed college so I was blessed with a very good friend circle. After graduation I joined in a service through college campus interview. I felt very grateful for giving me this opportunity.*
